WHAT DOES THE FUND INVEST IN?

The Fund invests in Fidelity All-in-One Fixed Income ETF (the underlying fund), which aims to achieve income by using a strategic asset allocation approach. The underlying fund invests primarily in other underlying funds that provide exposure to a diversified portfolio of global fixed income securities, with generally more emphasis on Canadian fixed income securities.

The underlying fund generally follows a neutral mix guideline of approximately 100% global fixed income securities. The underlying fund will be subject to annual and periodic rebalances.

HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money. One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility". In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

RISK RATING

Fidelity has rated the volatility of this Fund as **low**. Because this is a new Fund, the risk rating is only an estimate by Fidelity. Generally, the rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the 'What are the risks of investing in the fund?' section of the Fund's simplified prospectus.

NO GUARANTEES

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Series B units of the Fund. The fees and expenses - including any commissions - can vary among the series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1 SALES CHARGES

You may pay a sales charge when you buy Series B units of the Fund.

SALES CHARGE OPTION	WHAT YOU PAY WHEN YOU BUY YOUR UNITS		
	AS A PERCENT (%)	IN DOLLARS	HOW IT WORKS
Initial Sales Charge	0% to 5% of the amount you buy	\$0 to \$50 on every \$1,000 you buy	<ul style="list-style-type: none">• You and your representative decide on the rate.• The initial sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission.

2 FUND EXPENSES

You don't pay these expenses directly. They affect you because they reduce the return you get on your investment.

The Fund's expenses are made up of the management fee, fixed administration fee, and operating expenses and trading costs (fund costs). The series' annual management fee is 0.50% of the Fund's value. The series' annual fixed administration fee will fall under one of the three tiers below, depending on the amount of Fund assets:

AMOUNT OF FUND ASSETS	ADMINISTRATION FEE
Under \$100 Million	0.095%
\$100 Million - \$ 1 Billion	0.085%
Over \$ 1 Billion	0.075%

In addition, the Fund invests directly in an underlying ETF that in turn invests in other underlying ETFs that charge a management fee and/or administration fee, as applicable. Based on the weightings of these other underlying ETFs in the portfolio of the underlying ETF, which can change from time to time and may result in a higher or lower indirect fee than is estimated, we estimate the effective, indirect fee of the series to be an additional 0.33%. Because this series is new, its operating expenses and trading costs are not yet available.

More about the trailing commission

The trailing commission is an ongoing commission. Fidelity pays a trailing commission to all dealers, including discount brokers, for as long as you own the Fund. This is for services and advice that your representative and their firm provide to you. When these commissions are paid to discount brokers, they are for services and any tools or other assistance that your discount broker may offer.

The trailing commission is paid from the Fund's management fee and is based on the value of your investment.

TRAILING COMMISSION	
AS A PERCENT (%)	IN DOLLARS
Up to 0.500% of the value of your investment each year	\$0 to \$5.00 each year for every \$1,000 invested
