■ HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

RISK RATING

Fidelity has rated the volatility of this Fund as **low**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the "What are the risks of investing in the fund?" section of the Fund's simplified prospectus.

NO GUARANTEES

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

■ WHO IS THIS FUND FOR?

Investors who:

- plan to hold their investment for the medium-term

■ HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Series B units of the fund. The fees and expenses - including any commission - can vary among the series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

Series B units of the Fund are automatically included in the Program. The Program offers management and administration fee reductions, paid in the form of reinvested distributions ("fee distributions"), that increase progressively with assets, resulting in lower combined management and administration fees (before sales tax) than otherwise. We will automatically apply fee distributions on your Series B units of the Fund when you meet the applicable investment threshold. If you no longer meet the applicable investment threshold for a particular tier of fee distributions, we will automatically decrease the amount of the fee distributions to a lower tier, which will result in higher combined management and administration fees (before sales tax) but that will not exceed the Series B combined management and administration fees. See the fee distributions table under "Fund Expenses" below. For more details on the Program, see "Purchases, Switches and Redemptions" and "Fees and Expenses" in the Fund's simplified prospectus, and speak to your representative.
